Him!

## Discussion Questions

- 1. Fromke asks the question, “Is it possible the Church is unable to fully appreciate or interpret the truth she has simply because her perspective is wrong?” How has the Church's focus on 'surface issues' hindered deeper spiritual growth, and how can we address this?**
  
- 2. Is God the center of your universe? As we begin the new year, reflect on things that need to be recentered. Let Holy Spirit place His finger on the false center around which your life revolves and make you free. Write down what He says to you.**
  
- 3. “Before positive restoration can proceed, false foundations must be exposed and destroyed.” What is God wanting to pull down, destroy, and throw down so that He can build and plant in your life and ministry?**
