EPISODE #1142

Are You A Thinking Son?

Discussion Questions

1. Are you a thinking, reflecting son? When you hear the Word of God, do you take time to examine, meditate upon, and respond to what the Father is revealing, or have you become accustomed to receiving information without allowing it to transform how you live?

2. Have you begun by the Spirit but continued through the flesh? Where might you still be attempting to improve yourself, produce your own goodness, or reach spiritual maturity through human effort rather than depending upon Holy Spirit and the finished work of the Cross?

3. Is the crucified Christ still central to your understanding of the gospel? How has what you have believed about your identity shaped the way you think, respond, and live? What might Holy Spirit be exposing or awakening in you so that you can move forward as the maturing son you truly are in Christ?
